colours, glazes and transparent glazes

G.E.M.I.C.A. srl è un'azienda produttrice di smalti e impasti ceramici, fornisce anche materie prime per aziende ceramiche nel settore sanitario, artistico, tegole, stufe, laterizi e refrattari.

Aperta e flessibile alle richieste di un mercato in evoluzione, fonda su basi solide lo sviluppo del prodotto con l'obiettivo di fare della qualità e del servizio il proprio punto di forza e distinzione. Ogni singolo progetto prende forma mettendo assieme le esigenze che esprime la nostra clientela raccolte e valorizzate con una progettazione attenta all'integrazione con l'ambiente, alla qualità e al design, imprimendo una dinamicità che solo un team giovane e affiatato può esprimere. Sono presenti in azienda persone e tecnici specializzati, che nel corso degli anni hanno saputo garantire una continuità produttiva tale da guidare l'impresa lungo un percorso di sviluppo e crescita costante, nonostante la grande crisi mondiale.

L'azienda si contraddistingue per la qualità, l'Innovazione, per la fornitura di nuovi prodotti e nuove tecniche ceramiche. GEMICA srl ha differenziato la produzione in più settori e distribuisce centinaia di smalti e impasti per aziende ceramiche caratterizzati da uno stile e da un'estetica tipicamente italiani. I prodotti sono pensati e realizzati per le esigenze specifiche dei clienti offrendo soluzioni "su misura". Anni di lavorazione nel settore ceramico e la realizzazione di numerosi progetti, hanno permesso all'azienda di incrementare i propri risultati da un punto di vista di qualità, di design e durabilità, ampliando i settori di realizzazione di nuovi materiali. L'azienda vanta anche un laboratorio ceramico specializzato per ceramica sanitaria e piatti, e un laboratorio per artistico, piatti, tegole, laterizi e stufe. Strumentazione d'avanguardia per il controllo della qualità dei prodotti e si possono eseguire presso in nostri laboratori test e prove sui materiali per ogni settore.

G.E.M.I.C.A. srl is a manufacturer of glazes and ceramic bodies, it also supplies raw materials for ceramic companies in the sanitary, artistic, tiles, stoves, bricks and refractory sectors.

Open and flexible to the demands of an evolving market, it bases product development on solid foundations with the aim of making quality and service its strength and distinction. Each individual project takes shape by bringing together the needs expressed by our customers, collected and valued with a planning that is attentive to integration with the environment, quality and design, imparting a dynamism that only a young and close-knit team can express. There are specialized people and technicians in the company, who over the years have been able to guarantee production continuity such as to guide the company along a path of constant development and growth, despite the great global crisis.

The company stands out for its quality, innovation, and for the supply of new products and new ceramic techniques. GEMICA srl has diversified its production into several sectors and distributes hundreds of glazes and bodies for ceramic companies characterized by a typically Italian style and aesthetic.

The products are designed and manufactured for the specific needs of customers by offering "tailor-made" solutions. Years of working in the ceramic sector and the realization of numerous projects have allowed the company to increase its results from a point of view of quality, design and durability, expanding the sectors for the creation of new materials.

The company also boasts a specialized ceramic laboratory for sanitary ceramics and plates, and a laboratory for artistic, plates, tiles, bricks and stoves. State-of-the-art instrumentation for product quality control and tests and tests on materials for each sector can be performed in our laboratories.

Ossidi Coloranti

Coloring Oxides

Dalla delicatezza dei toni pastello alla vivacità dei colori saturi, abbiamo ciò che serve per dare vita alle vostre creazioni. Esplorate la nostra selezione e lasciatevi ispirare dalla potenza dei colori.

Tutti i coloranti sono stati stesi su piastrine con base trasparente in alto, diluiti al 6% e con base bianca in basso, diluiti al 6%.

G.E.M.I.C.A. è disponibile ad elaborare miscele speciali in caso di particolari esigenze

From the delicacy of pastel tones to the vibrancy of saturated colors, we have what you need to bring your creations to life. Explore our selection and be inspired by the power of colors.

All the dyes were spread on plates with a transparent base on top, diluted at 6% and with a white base on the bottom, diluted at 6%.
